

Welcome to the HOUSING AND HOPE COALITION REPORT SPACE!

LEARN MORE

ABOUT US

The Housing and Hope Coalition supports the community's HMIS, or Homeless Management Information System. The HMIS links the dozens of participating social service providers, allowing for the close coordination and comprehensive data needed to address complex and systemic challenges in our community, such as homelessness, racial inequality, and healthcare. In addition to the myriad uses that the HMIS plays in direct client care and provider coordination, the extensive datasets in the HMIS also allow for more effective regional planning and research, leading to better, more holistic, service strategies and superior client care. The Housing and Hope Coalitions HMIS Team welcomes any and all questions!

1983
Our Beginnings
Founded as **Data Systems International**, providing custom software solutions on Wang computers

2022
ClientInsight is born
After a years of development, Eccovia launched **ClientInsight**, our advanced data analytics and data warehousing platform

Present
Transition to Full Service
ClientInsight marked the next stage in our mission to provide innovative software solutions for HHS provider

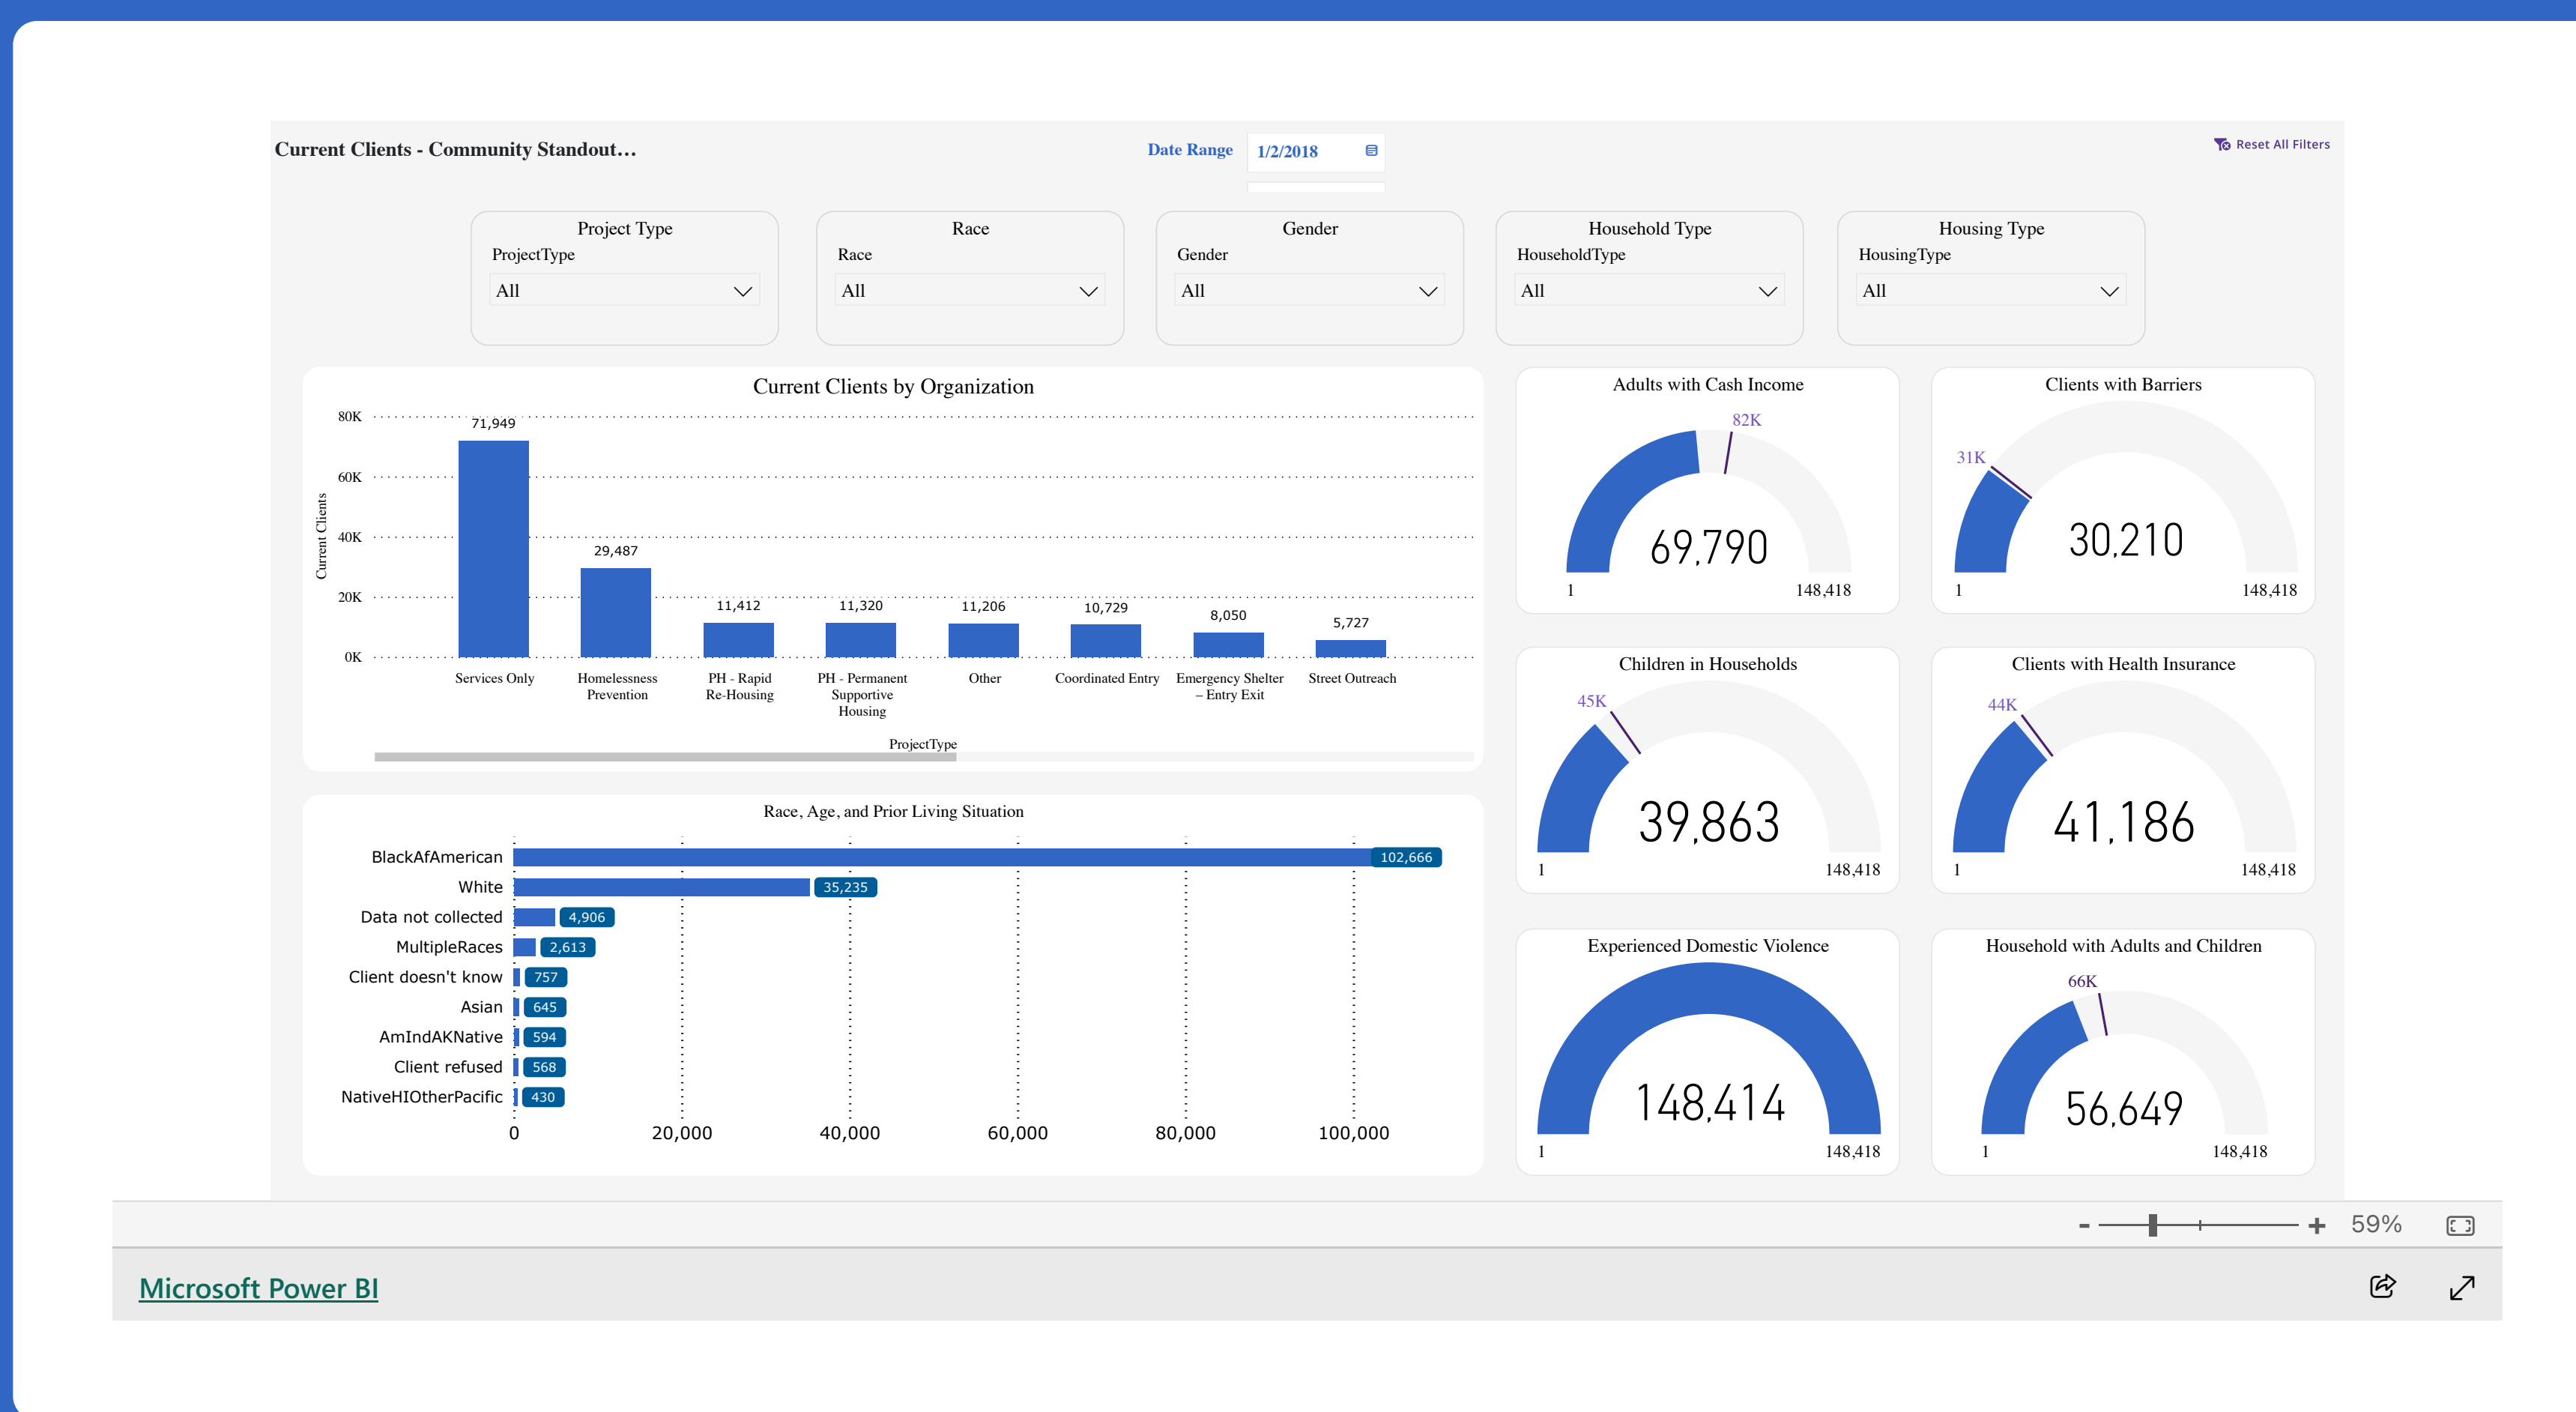

REPORTS

The following reports are intended to provide background and context regarding the state of homelessness in our community. Reports are updated on a nightly basis. If you have specific questions regarding the below reports, or are interested in additional data, please submit a request via the [Contact Us](#).

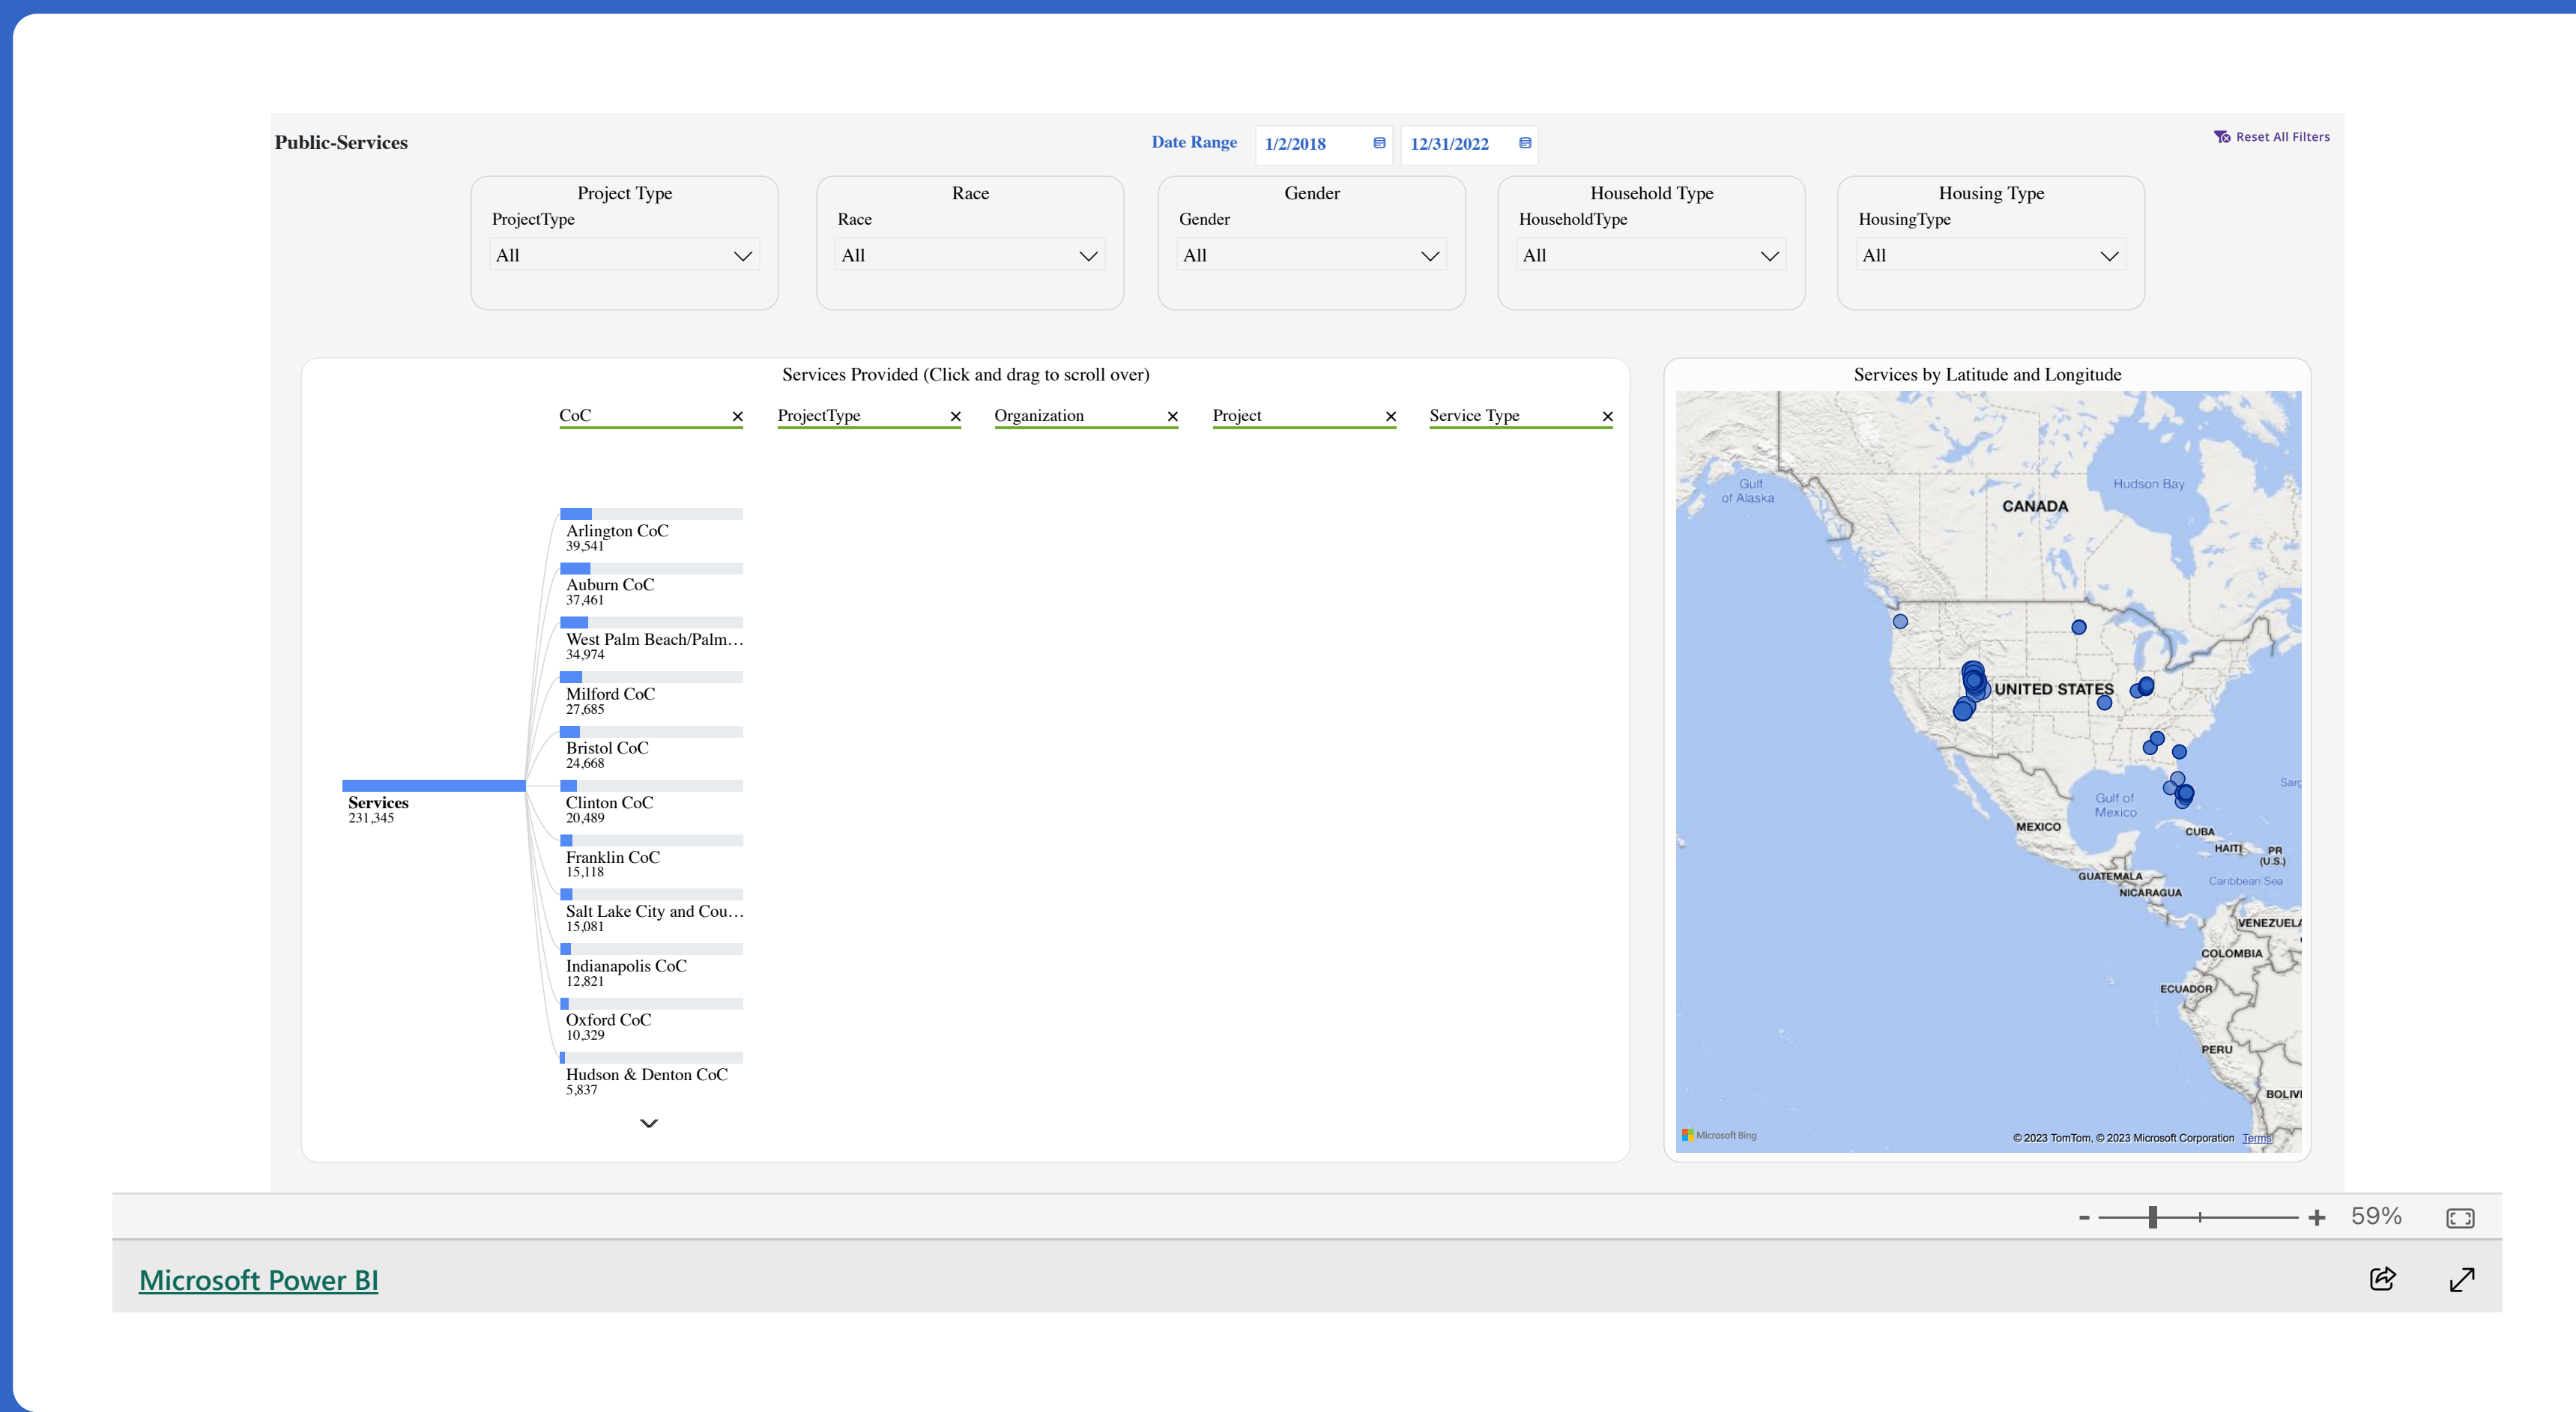

Current Client Analysis

The below report is reflective of the demographic characteristics that make up those experiencing homelessness.

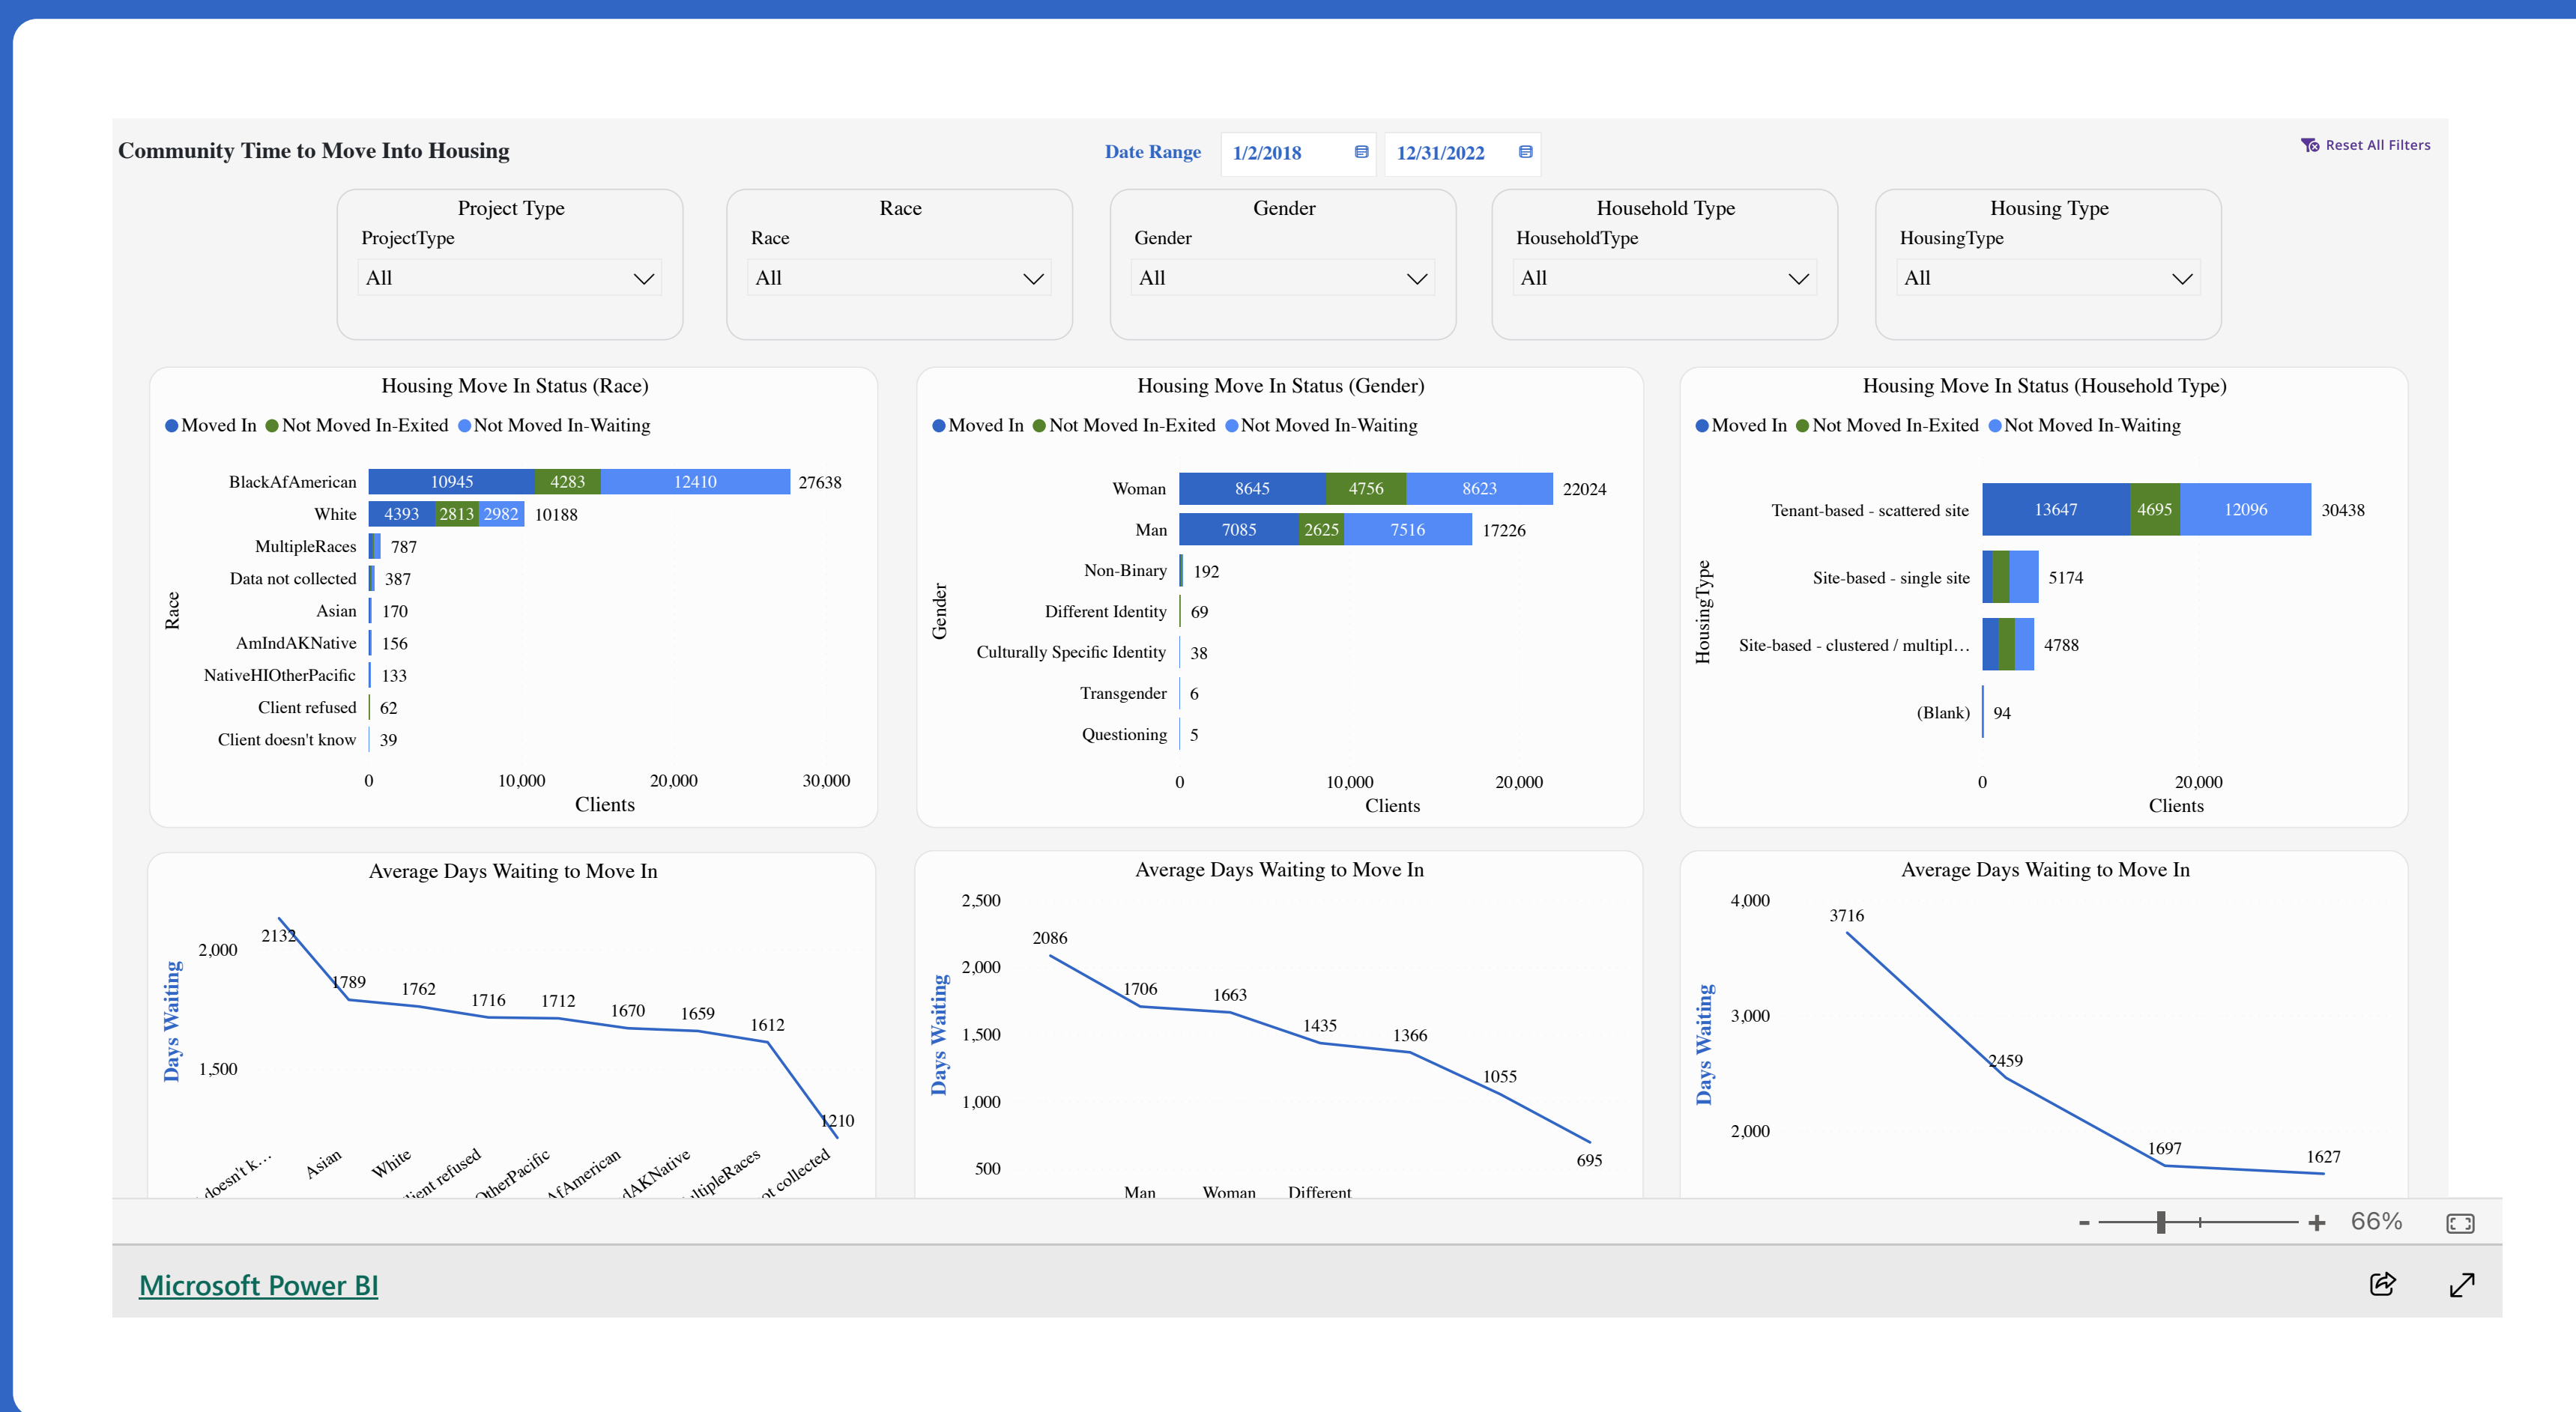

Services

Service providers in our community provide a diverse range of services to help stabilize those experiencing homelessness. The below report identifies the service volume provided by area.

Housing Move-In Status

The below report identifies the Housing Move-In status, including a breakout by demographics.
